6 - What aspects of this instructor's teaching were most helpful to you?
Jean-Felix Brouillette

Response Rate	10/43 (23.26%)

- I really appreciate how JF gives you the mathematical explanation behind many complex economic concepts. He has a profound understanding of the class and is super nice and helpful during office hours.
- Very very clear instruction! JF is the best TA I've ever had
- Flexible section material
- Patient, passionate, interesting
- detail oriented
- JF is very smart, and also kind and patient with students. He explained things very thoroughly throughout the quarter and solidified students' learning very well. A very effective and engaging instructor and put in tons of work through the quarter
- Most of my learning in this class came from JF. He did a great job building up the material from the true foundations and not assuming that we knew anything (and he was right). He was able to relate the concepts beyond the math (like candy). Great TA
- Super great at explaining things!! Sometimes lecture moves too fast, and I can't understand the intuition behind things, but section was always helpful in that regard. I really appreciated a quick recap of what we learned that week in lecture followed by a practice problem or two!
- Explained everything very clearly and made the material much easier to understand!!
- Explaining intuition behind problems during section Explaining practice problems step by step during section Answering questions very clearly during section and office hours Review sessions JF was phenomenal!!

7 - How can this instructor's teaching be improved?
Jean-Felix Brouillette

Response Rate	4/43 (9.3%)

- Honestly, it can't be. JF is the best TA I've ever had. He takes complex concepts in ECON 52 and explains them in a manner that makes sense to everyone. He covers what's important, is incredibly nice, and incredibly clear. JF is a phenomenal TA.
- N/A
- sometimes explains concepts using too much math when it could be explained in an easier way
- JF was an incredible TA and the only reason I learned anything in this class.
